

Oxenhope CE Primary School Values and Ethos **Statement**

At Oxenhope Church of England Primary School both our school curriculum and the way we shape the National Curriculum are driven by our shared beliefs and ethos.

Moral Choices – We value rights and responsibilities of all our school community and this includes using and appreciating the human value of Fair Trade.

Uniqueness – We value individuality and independence where every child can be celebrated for being themselves.

Challenge – We provide a safe environment for risk taking where open ended tasks, questioning and making mistakes are all encouraged as effective ways of learning.

Multicultural awareness – We provide a school, local and global picture of the world for our children to investigate and enable them to find their own pace in it and appreciate the value of diversity.

Play – Investigations can take many forms and we value play as a valuable learning process for all children.

Christian Values – Our school ethos and Christian Values run through everything we do from fundraising and charity events to the delivery of the National Curriculum.
