

	Fluency (+ and -)	Problem Solving (+ and -)	Application to other areas of maths (%):
Deep	1. $34,567 + 67,213$ 2. $12,345 + 5,673$ 3. $678,345 + 123,610$ 4. $7.95 + 9.9$ 5. $14.53 + 6.7$ 6. $78,910 - 5,672$ 7. $456,221 - 393,192$ 8. $56.7 - 23.5$ 9. $45.6 - 2.9$ 10. $56.44 - 34.56$	1. The capital city of Eritrea (the country that Boy 87 is set in) is Asmara. Approximately, 963,000 people live there. The capital city of England is London and approximately 8,982,000 people live there. How many people in total live in these two capital cities?  2. The population of Eritrea increases by approximately 75,530 per year. If the population in 2020 is approximately 3,214,000 what will the population be in 2021?  3. Eritrea has a population of approximately 3,214,000 people. The UK has a population of approximately 66,500,000 people. Eritrea has a larger population, but by how much?	The population of Eritrea in 2020 is approximately 3,214,000.  What is 50% of this population?  What is 25% of this population?  What is 10% of this population?
Deeper	1. $902,127 + 514,345$ 2. $754,002 + 56,719$ 3. $5,674,224 + 7,895,009$ 4. $789.32 + 341.08$ 5. $897.1 + 23.57$ 6. $268,008 - 45,678$ 7. $4,567,812 - 1,389,223$ 8. $4,567.01 - 567.4$ 9. $63,783.9 - 3.05$ 10. $67,445.6 - 7.897$	1. The capital city of Eritrea (the country that Boy 87 is set in) is Asmara. Approximately, 963,000 people live there. The capital city of England is London and approximately 8,982,000 people live there. Which capital city has the larger population and by how much?  2. The population of Eritrea (the country that Boy 87 is set in) increases by approximately 75,530 per year. If the population in 2020 is approximately 3,214,000 what will the population be in 2022?  3. If the population of Eritrea is approximately 3,214,000 and 963,000 of those people live in the capital city (Asmara), how many people live in the rest of the country?	The population of Eritrea in 2020 is approximately 3,214,000. If it increases by roughly 1% each year, then what will the population be in:  2021?  2022?  2023?  Remember you will have a new population at the end of each year!!
Deepest	1. $34,120 + 6,782,446$ 2. $45,657,889 + 90,881,223$ 3. $5,723.42 + 12.03$ 4. $0.05 + 8,900.45$ 5. $16,456.1 + 4.029$ 6. $9,089,173 - 512,308$ 7. $89,092,341 - 87,456,782$ 8. $12,458.01 - 560$ 9. $8,903 - 1,234.78$ 10. $12,567.8 - 563.1$	1. The continent of Africa (where Eritrea is found) has a population of approximately 1,216,000,000 people. The continent of Europe (where the UK is found) has a population of approximately 741,400,000 people. Which continent has a larger population, and by how many?  2. Eritrea (the country that Boy 87 is set in) has a population of approximately 3.214 million people. The UK has a population of approximately 66.5 million people. How many people live in both countries? Please give your answer as a whole number.  3. The population of Eritrea increases by approximately 75,530 per year. If the population in 2020 is approximately 3,214,000 what will the population be in 2026?	The population of Eritrea in 2020 is approximately 3,214,000. If it increases by 1.5% each year, then what will the population be in:  2021?  2022?  2023?  Remember you will have a new population at the end of each year!! <div style="text-align: right;">    </div>
