

# WELCOME to year 5!

Miss Cooper

## Year 5 – Leeming Class!

Hi, I'm Miss Cooper and I am so excited to be teaching you all this year! I'm looking forward to getting to know you and learning about the things you enjoy. I love teaching Science, History and Oracy. A few of my favourite things are Harry Potter, animals and everything Disney! I have a rabbit called Pickle and adore chocolate!

Miss Smales will be with us on Monday, Tuesday and Wednesdays and Miss Dawson on Thursdays!

Miss Smales

We did lots of fun topics in Year 5! I loved Oracy and Art lessons especially when we made our own mosaics and planets. You also get to go swimming which is so exciting!

I've enjoyed Year 5 because Miss Cooper is a great teacher! She helps you and she's kind!

In Year 5 we will cover some fantastic topics including the Brontes, Aztecs, Space and African Safaris (which is very exciting for me as I taught in Kenya for a little while before coming to Oxenhope)! We will read some exciting books together and will share our experiences to help each other learn. We will create lots of amazing artwork and will have a go at some sewing too. Through our history topics we will learn all about what the Romans did for us, important historical figures and about some of the crucial battles. In science we will learn all about animals and humans, and forces and will take part in lots of investigations. I can't wait for us to learn together!

Miss Dawson

You will come in through the Link Corridor, where you will be able to put all of your things in your own locker! We use this door for break times too. We will exit through the main entrance.

At Oxenhope your feelings are so important and we want to keep you safe and happy. We will have lots of discussion times in class and I will make sure you know you can speak to me about anything, whenever you need!
