We are a community where each person is valued by God. We nurture confidence, delight and discipline in seeking the skills needed to shape life well.

Life in all its fullness; John Chapter 10 v 10.

At Oxenhope CE Primary School, we believe in a broad, balanced and creative curriculum, which provides *each child* with a chance to flourish and achieve their potential by becoming successful, life-long learners who are able to enjoy life in all its fullness. Our Christian ethos, character and values pervade Oxenhope CE Primary ensuring the exceptional personal development and academic achievement of the whole child, as well as the overall 'well-being' of the school community. The school is wholehearted in its commitment, putting faith and spiritual development at the heart of the curriculum.

Christian beliefs and practices that underpin this policy

<p>Love / Compassion</p> 	<p>'Love your neighbour as yourself' Luke 10 v 27 Just like Jesus was 'moved with compassion' we want to instil the children of Oxenhope with selfless kindness towards others. The ultimate aim is to do good to other people, whoever they may be.</p>
<p>Service / Community</p> 	<p>'Serve one another in love' Galatians 5 v14 At Oxenhope we actively seek opportunities to work together to help others. As even Jesus washed the disciple's feet we can learn from his example and seek to do good where we can, both locally and globally.</p>
<p>Wisdom</p> 	<p>'Blessed are those who find wisdom, those who gain understanding.' Proverbs 3 v 13 As the children at Oxenhope are faced with situations and dilemmas, we endeavour to teach and direct them to make wise choices which will develop their characters and shape their lives. Wisdom is rooted in a proper reverence for God, the source of all life and values.</p>
<p>Forgiveness</p> 	<p>'Forgive us our sins as we forgive those who have sinned against us.' Luke 11 v 4 These are the words we quote in our school prayer. As we appreciate how much we have been forgiven, we can forgive others.</p>
<p>Courage</p> 	<p>"Have I not commanded you? Be strong and courageous. Do not be afraid; do not be discouraged, for the LORD your God will be with you wherever you go." Joshua 1 v 9 It is important that the children go from Oxenhope with a determined strength that they can bravely overcome whatever challenges they are faced with.</p>
<p>Endurance / Hope</p> 	<p>'Be joyful in hope, patient in affliction, faithful in prayer.' Romans 12 v 12 Jesus' followers are challenged to think of life like a race. However - NOT a short sprint but a marathon! The bible says that we are made stronger for the future every time we endure and refuse to give up. We teach our children to persevere and not give up hope.</p>
<p>Truth</p> 	<p>'Instead, we will speak the truth in love, growing in every way more and more like Christ' Ephesians 4 v 15 We teach the children to be full of integrity and honesty, knowing the difference between right and wrong. If they have strong moral principles they will be the much needed light in this world. As Jesus said 'the truth will set you free.'</p>

1) Principles

1.1 The Governing Body will act in accordance with Section 175 of the Education Act 2002 and the Government guidance 'Safeguarding Children and Safer Recruitment in Education' (2006) to safeguard and promote the welfare of pupils¹ at this school.

1.2 This school takes seriously its responsibility to safeguard and promote the welfare of the children and young people in its care. Meeting a pupil's intimate care needs is one aspect of safeguarding.

1.3 The Governing Body recognises its duties and responsibilities in relation to the Equalities Act 2010 which requires that any pupil with an impairment that affects his/her ability to carry out day-to-day activities must not be discriminated against.

1.4 This intimate care policy should be read in conjunction with the schools' policies as below (or similarly named):

- safeguarding policy and child protection procedures
- staff code of conduct and guidance on safer working practice
- 'whistle-blowing' and allegations management policies
- health and safety policy and procedures
- Special Educational Needs policy

1.5 The Governing Body is committed to ensuring that all staff responsible for the intimate care of pupils will undertake their duties in a professional manner at all times. It is acknowledged that these adults are in a position of great trust.

1.6 We recognise that there is a need to treat all pupils, whatever their age, gender, disability, religion, ethnicity or sexual orientation with respect and dignity when intimate care is given. The child's welfare is of paramount importance and his/her experience of intimate and personal care should be a positive one. It is essential that every pupil is treated as an individual and that care is given gently and sensitively: no pupil should be attended to in a way that causes distress or pain.

1.7 Staff will work in close partnership with parent/carers and other professionals to share information and provide continuity of care.

1.8 Where pupils with complex and/or long term health conditions have a health care plan in place, the plan should, where relevant, take into account the principles and best practice guidance in this intimate care policy.

1.9 Members of staff must be given the choice as to whether they are prepared to provide intimate care to pupils.

1.10 All staff undertaking intimate medical care must be given appropriate training.

1.11 This Intimate Care Policy has been developed to safeguard children and staff. It applies to everyone involved in the intimate care of children.

2) Child focused principles of intimate care

The following are the fundamental principles upon which the Policy and Guidelines are based:

- Every child has the right to be safe.
- Every child has the right to personal privacy.
- Every child has the right to be valued as an individual.
- Every child has the right to be treated with dignity and respect.
- Every child has the right to be involved and consulted in their own intimate care to the best of their abilities.
- Every child has the right to express their views on their own intimate care and to have such views taken into account.
- Every child has the right to have levels of intimate care that are as consistent as possible

3) Definition

3.1 Intimate care can be defined as any care which involves washing, touching or carrying out a procedure to intimate personal areas which most people usually carry out themselves but some pupils are unable to do because of their young age, physical difficulties or other special needs. Examples include care associated with continence as well as more ordinary tasks such as help with washing, toileting or dressing.

3.2 It also includes supervision of pupils involved in intimate self-care.

4) Best Practice

4.1 Equipment Provision

Where a child is in nappies, parents/carers will be responsible for ensuring the school has a supply of nappies, wipes and nappy bags.

Parents of children who regularly soil themselves will be required to provide a change of clothes in a named bag on a daily basis. Parents will be supported with toilet training by school staff and the school nurse. The school will be responsible for providing gloves, plastic aprons, a bin and liners to dispose of any soiled nappies on site. Pupils who require regular assistance with intimate care have written Individual Intimate Care Plans (IICP) or Educational health care plans (EHCPs) agreed by staff, parents/carers and any other professionals actively involved, such as school nurses or physiotherapists.

Ideally the plan should be agreed at a meeting at which all key staff and the pupil should also be present wherever possible/appropriate. Any historical concerns (such as past abuse) should be taken into account. The plan should be reviewed as necessary, but at least annually, and at any time of change of circumstances, e.g. for residential trips or staff changes (where the staff member concerned is providing intimate care). They should also take into account procedures for educational visits/day trips.

4.2 Where relevant, it is good practice to agree with the pupil and parent's/carers appropriate terminology for private parts of the body and functions and this should be noted in the plan.

4.3 Where a care plan (IICP) or EHCP is not in place, parents/carers will be informed the same day if their child has needed help with meeting intimate care needs (eg has had an 'accident' and wet or soiled him/herself). It is recommended practice that information on intimate care should be treated as

confidential and communicated in person at handover, by telephone or by sealed letter, not through the home/school diary.

4.4 In relation to record keeping, a written record should be kept in a format agreed by parents and staff every time a child has an invasive medical procedure, e.g. support with catheter usage (see aforementioned multi-agency guidance for the management of long term health conditions for children and young people).

4.5 Accurate records should also be kept when a child requires assistance with intimate care; these can be brief but should, as a minimum, include full date, times and any comments such as changes in the child's behaviour. It should be clear who was present in every case. This should be recorded on CPOMS.

4.6 These records will be kept in the intimate care file and available to parents/carers on request. This information request should follow the correct procedure for release of information.

4.7 All pupils will be supported to achieve the highest level of autonomy that is possible given their age and abilities. Staff will encourage each individual pupil to do as much for his/herself as possible.

4.8 Staff who provide intimate care are trained in personal care (eg health and safety training in moving and handling) according to the needs of the pupil. Staff should be fully aware of best practice regarding infection control, including the requirement to wear disposable gloves and aprons where appropriate.

4.9 There must be careful communication with each pupil who needs help with intimate care in line with their preferred means of communication (verbal, symbolic, etc) to discuss their needs and preferences. Where the pupil is of an appropriate age and level of understanding permission should be sought before starting an intimate procedure.

4.10 Staff who provide intimate care should speak to the pupil personally by name, explain what they are doing and communicate with all children in a way that reflects their ages.

4.11 Every child's right to privacy and modesty will be respected. Careful consideration will be given to each pupil's situation to determine who and how many carers might need to be present when s/he needs help with intimate care. SEN advice suggests that reducing the numbers of staff involved goes some way to preserving the child's privacy and dignity. Wherever possible, the pupil's wishes and feelings should be sought and taken into account.

4.12 An individual member of staff should inform another appropriate adult when they are going alone to assist a pupil with intimate care.

4.13 The religious views, beliefs and cultural values of children and their families should be taken into account, particularly as they might affect certain practices or determine the gender of the carer.

4.14 Whilst safer working practice is important, such as in relation to staff caring for a pupil of the same gender, there is research which suggests there may be missed opportunities for children and young people due to over anxiety about risk factors; ideally, every pupil should have a choice regarding the member of staff. There might also be occasions when the member of staff has good reason not to work alone with a pupil. It is important that the process is transparent so that all issues stated above can be respected; this can best be achieved through a meeting with all parties, as described above, to agree what actions will be taken, where and by whom.

4.15 Adults who assist pupils with intimate care should be employees of the school, not students or volunteers, and therefore have the usual range of safer recruitment checks, including enhanced DBS checks.

4.16 All staff should be aware of the school's confidentiality policy. Sensitive information will be shared only with those who need to know.

4.17 Health & Safety guidelines should be adhered to regarding waste products, regular collection of clinical waste is undertaken and the appropriate receptacles must be used.

4.18 No member of staff will carry a mobile phone, camera or similar device whilst providing intimate care

5) Child Protection

5.1 The Governors and staff at this school recognise that pupils with special needs and who are disabled are particularly vulnerable to all types of abuse.

5.2 The school's child protection procedures will be adhered to.

5.3 From a child protection perspective it is acknowledged that intimate care involves risks for children and adults as it may involve staff touching private parts of a pupil's body. In this school best practice will be promoted and all adults (including those who are involved in intimate care and others in the vicinity) will be encouraged to be vigilant at all times, to seek advice where relevant and take account of safer working practice.

5.4 Where appropriate, pupils will be taught personal safety skills carefully matched to their level of development and understanding.

5.5 If a member of staff has any concerns about physical changes in a pupil's presentation, e.g. unexplained marks, bruises, etc s/he will immediately report concerns to the Designated Senior Person for Child Protection or Headteacher. A clear written record of the concern will be completed and a referral made to Children's Services Social Care if appropriate, in accordance with the school's child protection procedures. Parents/carers will be asked for their consent or informed that a referral is necessary prior to it being made but this should only be done where such discussion and agreement-seeking will not place the child at increased risk of suffering significant harm.

5.6 If a pupil becomes unusually distressed or very unhappy about being cared for by a particular member of staff, this should be reported to the class teacher or Headteacher. The matter will be investigated at an appropriate level (usually the Headteacher) and outcomes recorded. Parents/carers will be contacted as soon as possible in order to reach a resolution. Staffing schedules will be altered until the issue/s is/are resolved so that the child's needs remain paramount. Further advice will be taken from outside agencies if necessary.

5.7 If a pupil, or any other person, makes an allegation against an adult working at the school this should be reported to the Headteacher (or to the Chair of Governors if the concern is about the Headteacher) who will consult the Local Authority Designated Officer in accordance with the school's policy: Dealing with Allegations of Abuse against Members of Staff and Volunteers. It should not be discussed with any other members of staff or the member of staff the allegation relates to.

5.8 Similarly, any adult who has concerns about the conduct of a colleague at the school or about any improper practice will report this to the Headteacher or to the Chair of Governors, in accordance with the child protection procedures and 'whistle-blowing' policy.

6) Medical Procedures

6.1 Pupils who are disabled might require assistance with invasive or non-invasive medical procedures. These procedures will be discussed with parents/carers, documented in the health care plan or IEP and will only be carried out by staff who have been trained to do so.

6.2 It is particularly important that these staff should follow appropriate infection control guidelines and ensure that any medical items are disposed of correctly.

6.3 Any members of staff who administer first aid should be appropriately trained in accordance with LA/ Trust guidance. If an examination of a child is required in an emergency aid situation it is advisable to have another adult present, with due regard to the child's privacy and dignity.
