

Maths Activities Grid (Y1)

<p><u>Addition facts</u> Use the grid on the next page to help you practise your addition facts. Practise your number bonds. Link to a website for practising your numberbonds: https://www.topmarks.co.uk/maths-games/hit-the-button</p>	<p><u>Maths Games</u> Choose a maths game to play each day. Have a go at inventing your own maths game. Link to a blog on maths games: https://thirdspacelearning.com/blog/fun-maths-games-activities-for-kids/</p>
<p><u>One more and one less</u> Get some raisins, grapes, cereal pieces. Place some on a plate. If the grown up with you says 'one more', add one more and say what number you have now. If they say 'one less', eat one and count how many you have left. Ask a grown up to give you some toys. Count how many you have. Can you put out another group of toys so you have one more and then one less? Build a tower with bricks. Can you build another tower with one more brick? Can you build another with one less brick?</p>	<p><u>Addition</u> Make your own tens frames or print some off the internet and use counters, or anything you can find to use instead of counters (raisins, grapes, cereal pieces etc.....). Choose 2 numbers 1-digit numbers to add together , e.g. 7 + 5. On your tens frame set out 7 on one thing, e.g. raisins and then add another 5 of something else e.g. cereal pieces. Have you filled a tens frame? How many are in the next tens frame? What is your answer? Try this adding different numbers. You can also draw them out. Link to video on using tens frames to add (2nd activity on video) https://www.youtube.com/watch?v=-v46SllY4ho&list=PLWIJ2KbiNEypnO-un0c9IthOv_RGjtEvG&index</p>
<p><u>Number bonds to 10</u> Practise your number bonds to 10 by playing the 'Total of 10' card game Can you think of any new rules for playing this game? Link to the 'Total of 10' card game: https://www.youtube.com/watch?v=SD028NO-ZGc&list=PLWIJ2KbiNEyoBdc5yLJ4PaiaY3o5E5xCB&index=5&t</p>	<p><u>Subtraction</u> Use your tens frames and counters from the addition activity to practise subtracting. Make the first number using the tens frame and subtract the number of counters/ pieces to work out how many you now have. Try it with different numbers. Watch the 3rd activity on the video: https://www.youtube.com/watch?v=-v46SllY4ho&list=PLWIJ2KbiNEypnO-un0c9IthOv_RGjtEvG&index</p>
<p><u>Represent different numbers</u> Make your own tens frames or print some off the internet and use counters, or anything you can find to use instead of counters (raisins, grapes, cereal pieces etc.....) Start by using one tens frame to make numbers up to 10, then use a second tens frame to show numbers up to 20. You can also draw them out. Link to video on using tens frames and counters to make numbers (see 2nd activity) https://www.youtube.com/watch?v=Hur7sKFpKPQ&list=PLWIJ2KbiNEypnO-un0c9IthOv_RGjtEvG&index</p> <p><u>Fractions of amounts</u></p>	<p><u>Fractions of shapes</u> Find things you can cut into halves and quarters, e.g a pizza, a cake, an apple. Ask your grown up to draw some circles on a page. Can you split them into halves and quarters? Link to video on fractions of shapes: https://www.youtube.com/watch?v=EGcZIrYouSA&list=PLWIJ2KbiNEypS0zxt54Wez5X4gnQ-xxvu&index</p> <p>Count in multiples of 2, 5 and 10</p>

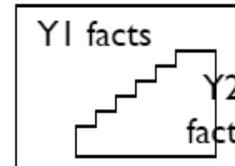

<p>Use some raisins, grapes, cereal pieces to help you find $\frac{1}{2}$, $\frac{1}{4}$ and $\frac{1}{3}$ of a set of objects. Use your teddies to help you. If your finding $\frac{1}{2}$ - share them between 2 of your teddies, $\frac{1}{4}$ - share them between 4 of your teddies and $\frac{1}{3}$ - share them between 3 of your teddies. Once you have done this, ask your grown up to draw some bar models (Split a rectangle 2 to work out $\frac{1}{2}$, 3 to work out $\frac{1}{3}$ and 4 to work out $\frac{1}{4}$)</p> <p>Link to video for finding fractions of amounts using the bar model: https://www.youtube.com/watch?v=PgrF1TYXP6Y&list=PLWIJ2KbiNEypS0zx+54Wez5X4qnQ-xxvu&index</p>	<p>Use raisins, grapes, cereal pieces etc... to help you practise counting in multiples of 2, 5 and 10.</p> <p>Group into 2s to practise counting in 2s, group into 5 to practise counting in 5s and into 10 to practise counting in 10s.</p> <p>Once you've done it with the objects, draw out circles to help you practise counting in 2s, 5s and 10s.</p>
<p><u>Time to o'clock and half past</u></p> <p>Ask your grown up to draw a number line from 1-12 and cut out an arrow (this will be your hour hand). Each number represents an hour on the clock, so if the arrow points to 1 it is showing 1 o'clock. Position your arrow on different numbers and read out the time. Then put your arrow half way between 2 numbers. This represents half past, so if your arrow is half way between 2 and 3, it is half past 3.</p> <p>Next draw a round clock and do the same with just one hand. Once you are happy telling the time with one hand, you can make a 2nd longer hand. This is your minute hand. Where should it point for o'clock? Where should it point for half past?</p> <p>Link to video on telling the time to o'clock and half past: https://www.youtube.com/watch?v=V32tRiEQ2AA</p>	<p><u>Read and write numbers from 1-20 in numbers and in words</u></p> <p>Make 1-20 number cards and one to twenty word cards out of paper.</p> <p>Have a go at matching up the numbers and words. Play the memory game, by turning all your cards over and taking it in turns to pick 2 cards. If the number and word matches, you get to keep both cards. The winner is the person with the most pairs at the end.</p>
<p><u>2D shapes and 3D shapes</u></p> <p>How many 2D and 3D shapes can you name? Go round your house/garden and make a list of all the circles, squares, rectangles and triangle shapes you can see. Can you find any other 2D shapes? Then go round looking for 3D shapes (cubes, cuboids, cylinders and spheres). Can you find any others?</p> <p>Ask your grown up to cut out some 2D shapes. Can you make different pictures with them? Try drawing out a picture using just 2D shapes.</p>	<p><u>Mass/weight</u></p> <p>Follow a recipe to bake some biscuits or cakes. Can you weigh out all the ingredients yourself?</p> <p>Find food in your kitchen, such as a tin of beans. Can you find something which is heavier and something which is lighter?</p>
<p><u>Money</u></p> <p>Ask your group up for some money. Can you identify all the coins?</p> <p>Can you make 10p? Can you find a different way to make 10p, using different coins?</p> <p>Try this for different amounts of money</p>	<p><u>Length</u></p> <p>Find something in your house you could use to measure with. They all need to be the same size e.g. counters, lego bricks, paper clips etc.... Choose different objects, such as a pen or book. Estimate how many counters etc... long it will be and then use them to measure what it actually is. Can you find different things round your house which are longer/shorter.</p>

Maths Activities Grid (Y2)

<p>Number facts Practise addition facts from the grid on the next page. Practise your number bonds, doubling & halving and times tables. Link to a website for practising: https://www.topmarks.co.uk/maths-games/hit-the-button</p>	<p>Place value Make your own tens and ones using straws, tooth pics, pencils (or anything else you can think of which you can make into bundles of ten). Have a go at using them to make different 2-digit numbers. Use plates to make your own part-whole models. Once you are confident, have a go at drawing out your tens and ones as pictures. (Link to video in next box)</p>
<p>Maths Games Choose a maths game to play each day. Have a go at inventing your own maths game. Link to a blog on maths games: https://matr.org/blog/fun-maths-games-activities-for-kids/</p>	<p>Place value (continued) Link to place value video: https://www.youtube.com/watch?v=vBIZal-8Kr4&list=PLWIJ2KbiNEyplZvdo0-OU48R3KSq3ywhV&index</p>
<p>Number bonds to 10 Practise your number bonds to 10 by playing the Total of 10 and the 'Make 10' pyramid card game. Link to the 'Total of 10' card game: https://www.youtube.com/watch?v=SD028NO-ZGc&list=PLWIJ2KbiNEyoBDc5yLJ4PaiaY3o5E5xCB&index=5&t Link to the 'Make 10 Pyramid' card game: https://www.youtube.com/watch?v=3IFFRWkMWGk&list=PLWIJ2KbiNEyoBDc5yLJ4PaiaY3o5E5xCB&index Can you make up your own game to practise number bonds to 10?</p>	<p>10 more and 10 less Make your own tens and ones using straws, tooth pics, pencils (or anything else you can think of which you can make into bundles of ten). Make your own tens and ones baseboard and practise adding and subtracting 10 from your number. Link to video on adding 10: https://www.youtube.com/watch?v=gqUtj9rkYCU&list=UUob4tkfOSXy6yav9Y54SKIQ&index Link to video on subtracting 10: https://www.youtube.com/watch?v=ZWhOUv5mC9s&list=UUob4tkfOSXy6yav9Y54SKIQ&index</p>
<p>Place value Play the 'Guess my Number' place value game. Make 2 sets of 2-digit Link to 'Guess my Number' video: https://www.youtube.com/watch?v=wzvQ5R-AOBk&list=PLWIJ2KbiNEyoBDc5yLJ4PaiaY3o5E5xCB&index</p>	<p>Addition Practise adding numbers together by playing games with dice. Have a go at playing 'Pig' and 'Skunk' and then try and think of your own game Link to dice game 'Pig': https://www.youtube.com/watch?v=foj6ujoT_HU&list=PLWIJ2KbiNEyoBDc5yLJ4PaiaY3o5E5xCB&index Link to dice game 'Skunk': https://www.youtube.com/watch?v=-SWReEQOvr4&list=PLWIJ2KbiNEyoBDc5yLJ4PaiaY3o5E5xCB&index</p>

<p><u>Column addition of 2-digit numbers</u></p> <p>Make your own tens and ones using straws, tooth pics, pencils (or anything else you can think of which you can make into bundles of ten).</p> <p>Use them to have a go at adding 2 2-digit numbers and to understand what happens when your 2 digits add to 10 or more.</p> <p>Link to column addition of 2-digit numbers video: https://www.youtube.com/watch?v=hHM25Nx4yhg&list=PLWIJ2KbiNEyq1iZ36fRe-xTJ4NNZsmYz9&index</p>	<p><u>Fractions of amounts</u></p> <p>Find some things you can use to share out, to practise finding fractions of amounts. E.g. raisins, grapes, sweets etc....</p> <p>Share them out between 2 teddies to find $\frac{1}{2}$ and then between 4 teddies to find $\frac{1}{4}$ of them. Draw a bar model split into 2 to find halves and into 4 to find quarters.</p> <p>Link to video on fractions of amounts: https://www.youtube.com/watch?v=PgrF1TYXP6Y&t</p>
<p><u>Column subtraction of 2-digit number</u></p> <p>Make your own tens and ones using straws, tooth pics, pencils (or anything else you can think of which you can make into bundles of ten).</p> <p>Use them to have a go at subtracting 2 2-digit numbers and to understand what happens when your 2 digits add to 10 or more.</p> <p>Link to column subtraction of 2-digit numbers video: https://www.youtube.com/watch?v=pADFYrGdyYE&list=PLWIJ2KbiNEyq1iZ36fRe-xTJ4NNZsmYz9&index</p>	<p><u>Time (o'clock, half past, quarter past and quarter to)</u></p> <p>Why don't you make your own clock and have a go at telling the time to o'clock and half past using just the hour hand. Once you are confident with that, have a go at telling the time to quarter past and quarter to.</p> <p>Once you have tried it using just the hour hand, bring in the minute hand too.</p> <p>Link to video on time (o'clock and half past): https://www.youtube.com/watch?v=V32tRiEQ2AA&t</p> <p>Link to video on quarter past and quarter to: https://www.youtube.com/watch?v=86RbCwhdJSs&t</p>
<p><u>Division as grouping and sharing</u></p> <p>Find things around the house you can use to practise division as sharing and division of grouping. You could use raisins, grapes, lego bricks etc...</p> <p>Link to video on division as grouping and sharing: https://www.youtube.com/watch?v=bdqIIPNNhuI</p>	<p><u>2D and 3D Shapes</u></p> <p>How many 2D and 3D shapes can you name? Go round your house/garden and make a list of all the circles, squares, rectangles and triangle shapes you can see. Can you find any other 2D shapes? Then go round looking for 3D shapes (cubes, cuboids, cylinders and spheres). Can you find any others?</p>
<p><u>Equivalent fractions</u></p> <p>Find different things you can use to prove that a half is equal to 2 quarters. Cut a pizza/cake, share raisins, grapes, lego out into halves and quarters.</p> <p>Link to video on fractions equal to a half: https://www.youtube.com/watch?v=ieT9k537jP4&list=PLWIJ2KbiNEypS0zxt54Wez5X4qnQ-xxvu&index</p>	<p><u>Money</u></p> <p>Ask your parents for some money. Can you identify all the coins?</p> <p>Can you make 50p? Can you find a different way to make 50p, using different coins?</p> <p>Try this for different amounts.</p>

Maths Activities Grid (Y3)

<p><u>Times Tables</u> Practis your times tables https://trockstars.com/ https://www.topmarks.co.uk/maths-games/hit-the-button https://www.timestables.co.uk/</p>	<p><u>Column subtraction</u> Make your own tens and ones using straws, tooth pics, pencils (or anything else you can think of which you can make into bundles of ten). Practice column subtraction with your tens and ones, then have a go at drawing them out. Once you have done this, practise column subtraction with just numbers. Why don't you use a dice to generate your numbers and make some column subtraction questions of your own. Link to video for column subtraction of 2 2-digit numbers: https://www.youtube.com/watch?v=pADFYrGdyYE&list=PLWIJ2KbiNEyq1iZ36fRe-xTJ4NNZsmYz9&index</p>
<p><u>Maths Games</u> Choose a maths game to play each day. Have a go making up new rules or inventing your own maths game. https://matr.org/blog/fun-maths-games-activities-for-kids/ Link to maths games videos: https://www.youtube.com/watch?v=foj6ujoT_HU&list=PLWIJ2KbiNEyoBdc5yLJ4PaiaY3o5E5xCB</p>	<p><u>Grid method multiplication</u> Multiply a 2-digit number by a 1 digit by making your own place value counters to help you. You can either draw on counters or make your own out of card/paper. Once you have had a go with counters, practise by drawing out the counters. Then have a go practising with just the numbers. Link to video for multiplying a 2-digit number by a 1-digit number: https://www.youtube.com/watch?v=RRX3AQzYWHM&list=PLWIJ2KbiNEyq1iZ36fRe-xTJ4NNZsmYz9&index</p>
<p><u>Column addition</u> Make your own tens and ones using straws, tooth pics, pencils (or anything else you can think of which you can make into bundles of ten). Practice column addition with your tens and ones, then have a go at drawing them out. Once you have done this, practise column addition with just numbers Why don't you use dice to generate your numbers and make some column addition questions of your own. Link to video for column addition of 2 2-digit numbers: https://www.youtube.com/watch?v=hHM25Nx4vhg&list=PLWIJ2KbiNEyq1iZ36fRe-xTJ4NNZsmYz9&index=7&t</p>	<p><u>Short division – division as grouping and sharing</u> Get some something you can use to share (counters/raisins/grapes etc....) Practise dividing by sharing and dividing by grouping. Link to video: https://youtu.be/bdglIPNNhuI Divide a 2 digit number by a 1-digit number by making your own place value counters to help you. You can either draw on counters or make your own out of card/paper. Once you have had a go with counters, practise short division drawing out the counters. Then have a go practising with just the numbers. Link to video for dividing a 2-digit number by a 1-digit number: https://www.youtube.com/watch?v=4EcMON3F1yE&list=PLWIJ2KbiNEyq1iZ36fRe-xTJ4NNZsmYz9&index</p>

<p><u>Equivalent fractions</u> Investigate fractions equivalent to $\frac{1}{2}$ using food (pizza, cake, chocolate bars), toys (coloured bricks/lego) or print fraction circles from the internet Link to video on fractions equivalent to $\frac{1}{2}$: https://www.youtube.com/watch?v=ieT9k537jP4&list=PLWIJ2KbiNEypS0zxt54Wez5X4qnQ-xxvu&index Then start to investigate other equivalent fractions: Link to video on more equivalent fractions: https://www.youtube.com/watch?v=LUJ49WdgRyM&list=PLWIJ2KbiNEypS0zxt54Wez5X4qnQ-xxvu&index</p>	<p><u>Time (O'Clock, half past, quarter past and quarter to)</u> Telling the time on an analogue clock can be tricky. Sometimes it can be easier to learn the time by introducing one hand at a time. Make your own clock from card or paper and try telling the time to o'clock and half past, using only the hour hand. Link to video on telling the time to o'clock and half past: https://www.youtube.com/watch?v=V32tRiEQ2AA&t Once you are confident with o'clock and half past, have a go at quarter past and quarter to. Link to video on telling the time to o'clock, half past, quarter past & quarter to: https://www.youtube.com/watch?v=86RbCwhdJSs</p>
<p><u>Fractions of amounts</u> Use raisins, grapes, sweets, or anything else you can share to help you find fractions of amounts. Share them between your teddies and then have a go at drawing the bar model and sharing on there. Link to video on fractions of amounts by sharing and using the bar model: https://www.youtube.com/watch?v=PgrF1TYXP6Y&list=PLWIJ2KbiNEypS0zxt54Wez5X4qnQ-xxvu&index</p>	<p><u>Coordinates</u> Draw out your own grid and work out the coordinates of different items you place on your grid. Link to video on coordinates: https://www.youtube.com/watch?v=LheIupt9SXM&list=PLWIJ2KbiNEypHzK91uOhgALvZdLlNYiVw</p>
<p><u>Adding Fractions</u> Use coloured bricks / lego or print fraction circles from the internet. Have a go at adding fractions with the same denominator when they add up to less than one whole, then have a go at adding fractions which add to more than one whole. Link to video on adding fractions with the same denominator: https://www.youtube.com/watch?v=s768ZakRX4k&list=PLWIJ2KbiNEypS0zxt54Wez5X4qnQ-xxvu&index</p>	<p><u>Right angles</u> Make your own angle eater/right angle tester and go round your house/garden looking for right angles. Write down all the things you can find which have a right angle. What about things which are less than or more than a right angle? https://www.youtube.com/watch?v=S_p0STXaf9s&list=PLWIJ2KbiNEyrTqPf1uBkSPri4zSMmL09L</p>
<p><u>Subtracting fractions</u> Use coloured bricks / lego or print fraction circles from the internet. Have a go at subtracting fractions with the same denominator starting with one whole or less, then have a go at subtracting fractions starting with a fraction bigger than one whole. Link to video on subtracting fractions with the same denominator: https://www.youtube.com/watch?v=iUfsGb5KLWs&list=PLWIJ2KbiNEypS0zxt54Wez5X4qnQ-xxvu&index</p>	<p><u>Identify parallel and perpendicular lines</u> Can you find any parallel and perpendicular lines in your house / garden? Write down all the things you can find with parallel lines and then do the same for perpendicular lines. Link to video on parallel and perpendicular lines: https://www.youtube.com/watch?v=AUBVEyzxn7s&list=PLWIJ2KbiNEyrTqPf1uBkSPri4zSMmL09L&index</p>

Maths Activities Grid (Y4)

<p><u>Times Tables</u> Practise your times tables https://trockstars.com/ https://www.topmarks.co.uk/maths-games/hit-the-button https://www.timestables.co.uk/</p>	<p><u>Column Subtraction</u> Make your own hundreds, tens and ones counters by drawing on counters you have at home or make some out of paper/card. Practice column subtraction with your hundreds, tens and ones, then have a go at drawing them out and then practising with just the numbers. Why don't you use a dice to generate your numbers and make some column subtraction questions of your own! Link to video for column subtraction of 2 3-digit numbers: https://www.youtube.com/watch?v=sTILCPp6q2c&list=PLWIJ2KbiNEyq1iZ36fRe-xTJ4NNZsmYz9&index=10</p>
<p><u>Maths Games</u> Choose a maths game to play each day. Have a go at inventing your own maths game. https://matr.org/blog/fun-maths-games-activities-for-kids/ Link to maths games videos: https://www.youtube.com/watch?v=foj6ujoT_HU&list=PLWIJ2KbiNEyoBDc5yLJ4PaiaY3o5E5xCB</p>	<p><u>Grid method and column method multiplication</u> Multiply a 3-digit number by a 1-digit number by making your own place value counters to help you. You can either draw on counters or make your own out of card/paper. Once you have done this with counters, have a go by drawing them out. Link to video: https://www.youtube.com/watch?v=QrKqvhV-j_Q&list=PLWIJ2KbiNEyq1iZ36fRe-xTJ4NNZsmYz9&index=13</p>
<p><u>Column Addition</u> Make your own hundreds, tens and ones counters by drawing on counters you have at home or make some out of paper/card. Practice column addition with your hundreds, tens and ones, then have a go at drawing them out. Once you have done this, practise column addition using just the numbers. Why don't you use a dice to generate your numbers and make some column addition questions of your own! Link to video for column addition of 2 3-digit numbers: https://www.youtube.com/watch?v=PRAOFeuaaVU&list=PLWIJ2KbiNEyq1iZ36fRe-xTJ4NNZsmYz9&index=9</p>	<p><u>Division (grouping and sharing and bus stop method)</u> Get some something you can use to share (counters/raisins/grapes etc....) Practise dividing by sharing and dividing by grouping. Link to video: https://youtu.be/bdglIPNNhuI Divide a 3 digit number by a 1-digit number by making your own place value counters to help you. You can either draw on counters or make your own out of card/paper. Once you have had a go with counters, try it by just drawing out the counters. Then have a go practising with just the numbers. Link to video for dividing a 3-digit number by a 1-digit number: https://www.youtube.com/watch?v=D7PelKmv-jI&list=PLWIJ2KbiNEyq1iZ36fRe-xTJ4NNZsmYz9&index=14</p>
<p><u>Equivalent fractions</u></p>	<p><u>Telling the time in analogue and digital</u></p>

<p>Print out your own fraction strips/fraction circles from the internet. Use these to find fractions which are equivalent to each other e.g. $\frac{2}{6} = \frac{1}{3}$</p> <p>Link to video on equivalent fractions: https://www.youtube.com/watch?v=LUI49WdgRyM&list=PLWIJ2KbiNEypS0zxt54Wez5X4gnQ-xxvu&index</p>	<p>Try converting different times from analogue to digital and from digital to analogue. Link to video on analogue to digital time: https://www.youtube.com/watch?v=72MmaggC_ZtA&list=PLWIJ2KbiNEypQx6oZDAuyI55g_ShOQRNx&index</p>
<p>Fractions of amounts</p> <p>Use raisins, sweets, grapes etc.... and draw out bar models to help you find fractions of amounts. Once you have had a go with practical resources, draw them out as a picture to help you. Once you are confident with this, draw out the bar model but just record the numbers in it.</p> <p>Link to video showing the bar model for fractions of amounts: https://www.youtube.com/watch?v=qh53TJoMV3o&list=PLWIJ2KbiNEypS0zxt54Wez5X4gnQ-xxvu&index</p>	<p>Multiplying and dividing by 10 and 100</p> <p>Make your own place value grid and place value slider and try multiplying different numbers by 10 and 100. Can you work out what happens when you have decimal numbers?</p> <p>Link to video on multiplying by 10 and 100: https://www.youtube.com/watch?v=7Y0zSnhiShc&list=UUob4tkfOSXy6yav9Y54SKIQ&index</p> <p>Link to video on dividing by 10 and 100: https://www.youtube.com/watch?v=PPMnbH2M0io&list=UUob4tkfOSXy6yav9Y54SKIQ&index</p>
<p>Adding and subtracting fractions</p> <p>Use lego or print fraction circles off the internet to help you to practise adding and subtracting fractions with the same denominator.</p> <p>Link to video showing adding fractions with the same denominator: https://www.youtube.com/watch?v=s768ZakRX4k&list=PLWIJ2KbiNEypS0zxt54Wez5X4gnQ-xxvu&index</p> <p>Link to video showing subtracting fractions with the same denominator: https://www.youtube.com/watch?v=iUfsGb5KLWs&list=PLWIJ2KbiNEypS0zxt54Wez5X4gnQ-xxvu&index</p>	<p>Right, acute and obtuse angles</p> <p>Make your own angle eater/right angle tester and go round your house/garden looking for right, acute and obtuse angles.</p> <p>Link to video showing investigation of right, acute and obtuse angles: https://www.youtube.com/watch?v=S_p0STXaf9s&list=PLWIJ2KbiNEypTqPf1uBkSPri4zSMmL09L</p>
<p>Telling the time in analogue</p> <p>Practise telling the time in analogue. You can choose to practice reading the time to o'clock an half past:</p> <p>https://www.youtube.com/watch?v=V32tRiEQ2AA&t</p> <p>Once you are confident with this, have a go at telling the time to quarter past & to:</p> <p>https://www.youtube.com/watch?v=86RbCwhdJSs</p> <p>If you can do this, have a go at telling the time to 5 minutes:</p> <p>https://www.youtube.com/watch?v=QJkyONqIYQM</p> <p>Finally have a go at reading the time to the nearest minute:</p> <p>https://www.youtube.com/watch?v=ohgPNOjOcf4</p>	<p>Coordinates</p> <p>Draw out your own grid and work out the coordinates of different items you place on your grid.</p> <p>Link to video on coordinates: https://www.youtube.com/watch?v=LheIupt9SXM&list=PLWIJ2KbiNEypHzK91u0hgALvZdLINYiVw</p>
