

Once you have registered your account via the invite sent from school, you can log in either through your web browser or via the Class Dojo app. These are instructions for logging in through your web browser on a computer.

Click 'Log In' in the top right corner.

Choose to log in as a parent.

This is what you will see from a parent's account. You will see updates from school and you can message your child's teacher by clicking the 'Messages' button at the top.

Here you can message your child's class teacher and anybody linked to that class (e.g support staff). Please do not message Mrs Hartley even though this says 'Class Teacher'. We are still getting used to Dojo ourselves and looking to get Mrs Hartley removed from each class. You will be able to see any comments/messages added by the teacher and any rewards given.

To access your child's account, click on 'Student Accounts' and you will be able to choose your parent account or your child's account. To upload work, this needs to be done on your child's account.

+ Add a child

Click on your child.

This is where your child can upload work. They could be asked to do some writing, a drawing, take a photo/video or upload something. It will be clear what your child is asked to do when uploaded by their teacher. You can also upload work by clicking on the 'Portfolio' button at the top of the page.

Once you have registered your account via the invite sent from school, you can log in either through your web browser or via the Class Dojo app. These are instructions for logging in through the app on an iPhone. The app logo may be slightly different on an android but should still work the same.

When you open the app, this is what you will see. Click on 'I'm a parent'.

Click on 'I have an account' and once you're logged in, this is where you will see. This is what you will see updates from school from a parent's account.

At the bottom of the app, there are different options.

The 'Beyond' button takes you to different games, activities and challenges your children can be doing at home.

The 'Messages' button enables you to message your child's class teacher and anybody linked to that class (e.g support staff). Please do not message Mrs Hartley even though this says 'Class Teacher'. We are still getting used to Dojo ourselves and looking to get Mrs Hartley removed from each class.

The 'Notifications' button will show you any notifications you have.

The button in the middle at the bottom, is your child's character.

Clicking on this will take you here.

On this page, you can give points to your child from home which their teacher will be able to see. There are different types of points you can award which you will see when you click 'Give points'. You will also be able to see any points they have been given at school.

The 'Classes' button at the top shows you which members of staff are linked to that class.

The 'Connections' button shows you which family members are linked to your child.

To switch onto your child's account, click the account button at the top left. Here is where you will be able to choose between your parent account and your child's account. To upload work, this needs to be done through your child's account.

Click on the option that states which year group your child is in. This is where they can upload any work/evidence and there is a couple of options how to do so, shown on the next page. You can also see at the top how many points your child has.

Clicking on the 'Home Report' tab will bring up your child's report, shown on the next page. This will show how many points they have and what for.
